

MLBS Seminar Series Summer 2015

8:00p.m. Lewis Hall Auditorium
Mountain Lake Biological Station
Giles County Virginia
540-626-7196 mlbs@virginia.edu mlbs.org

- May 28 Zack Murrell
Department of Biology, Appalachian State University
Species boundaries, hybridization and the Endangered Species Act
- June 2 Corlett Wood
Department of Biology, University of Virginia
The consequences of environmental heterogeneity for fitness and selection in forked fungus beetles
- June 4 Henry Wilbur
Department of Biology, University of Virginia
Historical ecology of Mountain Lake area
- June 9 Brittany Sutherland
Department of Biology, University of Virginia
Does genome duplication cause instant speciation?
- June 11 *REU Proposals*
Special afternoon session. 1:00 - 4:00 p.m.
- June 16 Robert Cox
Department of Biology, University of Virginia
When one genome serves two masters: sexual conflict in the brown anole
- June 18 Becky Fuller
Department of Animal Biology, University of Illinois
Color patterns, color vision, and next generation science standards: lessons from bluefin killifish
- June 23 David Haak
Department of Plant Pathology, Physiology, and Weed Science, Virginia Tech
Evolutionary ecology of plant defense
- June 25 Caitlin Gabor
Department of Biology, Texas State University
Amphibian stress response to urbanization and disease
- June 30 Mikus Abolins-Abols
Department of Biology, Indiana University
Trade-off between stress and reproduction across environments
- July 2 7:30pm Ian Nichols
Department of Biology, University of Virginia
Great ape field research
- July 7 Brian Sanderson
Department of Biology, University of Virginia
Fitness consequences of social and ecological context in *Silene vulgaris*
- July 9 Andrea Aspbury
Department of Biology, Texas State University
Stress hormone and mating behavior in male and female red-spotted newts

- July 14 Eric Liebgold
Department of Biological Sciences, Salisbury University
A Tale of Two Colors: color morphology and predation in striped and unstriped redbacked salamanders
- July 16 *ArtLab Lucile Walton Fellow*
Nathalie Miebach
Boston
Exploring the nuance of weather through sculpture and music
- July 21 Becky Wilbur and Henry Wilbur
Department of Biology, University of Virginia
Two naturalists in Newfoundland
- July 23 Stephen Vitiello
Department of Kinetic Imaging, Virginia Commonwealth University
and
Kasey Fowler-Finn
Department of Biology, Saint Louis University
Collaborative Listening
- July 29 (Wed) *REU Final Reports*
- July 30 *REU Final Reports*
