GRADUATE EVOLUTION WORKSHOP

Learn to think

Practice identifying good questions, crafting hypotheses, and designing experiments in a group of peers, with feedback from junior faculty Amanda Gibson, Jeremy Draghi, Idelle Cooper, and Corlett Wood

Learn to write

Turn your ideas into a grant and receive instruction on structure and word choice in two scientific writing tutorials. A great opportunity for early graduate students! Up to 2 course credits possible.

Build community

Write, collaborate, and argue with fellow scientists, then walk in the woods and share a meal with other residents of the beautiful Mountain Lake Biological Station in Virginia

JULY 29-AUGUST 5

reg. + room/board = \$300
ASN Student Awards available
